# Ferguson-EAP Sunshades For Curtain Wall Systems

Ferguson's 100 Series Sunshades have been developed for use with Ferguson's curtain wall systems. The sunshades are available with numerous blade and end cap options. Custom designs are also available to meet your specific project requirements for appearance and performance. They are available in painted or anodized finish, and are easily installed into Ferguson's curtain wall systems. The 100 series sunshades are engineered for dead, wind and snow loads. Glass sunshade options are also available.
